MARVIN VALKE

F U L L S T A C K

W E B D E V E L O P E R

MongoDB | Express | ReactJS | NodeJS
VueJS | NuxtJS

PROFILE

Passionate and skilled JavaScript web developer, speaking French and English seeking a full time position.

My skills include React.js, Handlebars and backend technologies like NodeJS, Express, Axios and MongoDB.

Added to these technical skills, I bring thirteen years of professional experience in marketing as former product manager in the eyewear industry.

PROJECTS

CHASING MANISH

HTML | CSS | Javascript ES6

Created a full Javascript game, using Canvas. Horizontal script animation, implementing collisions, dom manipulations. Overhauled time organization and restructured tasks plan.

WOD[I] - WODPICKER

Javascript | MongoDB | Handlebars | Express | NodeJS

Built an application for workouts based on an external API and using 3 models & 2 relationships.

Bootstrap styling, axios request, routing and seeding.

Team, and was the leader of the project.

Coordinated merge, commit.

HAL-0 WORLD

React | MongoDB | Javascript | Express | NodeJS

Full stack application built with React. Server side coded with Express Mongo & NodeJs.

Client side coded with React & Material Ui.

Hooks, states, context and axios request. Boosted a lot my debugging skills in this team project and improved server and client relation.

SMOOVIES

React | Axios | Javascript | Sass

React application using Axios. Style and responsive design made with Sass. This project improved my Ux/UI skills.

COUP 2 PRESSION

Vue | Axios | Javascript | Sass

Fake e-commerce application using VueJS. cart animations made with Sass.
